Piezīme:

MAPEI nodrošina šo pielikumu kopā ar EĪD, lai atvieglotu CE marķējuma skaidrojumu starptautiskajiem klientiem. Pievienotais CE marķējums var būt nedaudz atšķirīgs, salīdzinot ar to, kas norādīts uz attiecīgā iepakojuma vai dokumentācijas, jo:

- NPD (Veiktspēja nav noteikta) vērtības var tikt mainītas CE marķējumā
- Dēļ grafiskā pielāgojuma uz iepakojuma vai izmantotās drukāšanas metodes,
- Dēļ valodu atšķirības (viens iepakojums vairākām valstīm),
- produkts ir jau krājumā uz brīdi, kad tiek ieviests CE marķējuma atjauninājums,
- Drukas kļūdas dēļ.

Note:

MAPEI supplies the current annex along with the DoP to make the consultancy of the CE marking easier for the international clients. The enclosed CE marking can be slightly different compared to the one printed on the relevant packaging or documentation because of:

- *NPD (No Performance Determined) values can be omitted by the CE marking,*
- *graphic adaptations due to lack of space on the packaging or printing methods used,*
- *different language (the same packaging can be shared by several countries),*
- *the product is already in stock when the updating of the CE marking is implemented,*
- *printing mistakes.*
